Preston Primary Academy Trust

Pupil Acceptable Use Policy for Internet, Learning Environment and E-mail

This policy has been written with the underlying principles of a Church of England school, which applies to Preston C of E Primary School and North Cadbury C of E Primary School.

The Internet offers both educational and social opportunities for our children. Whilst recognising the benefits we must also establish appropriate, effective and safe use of the Internet.

- 1 Pupils must obtain the **permission of parent(s)/guardians(s) /carer(s)** before they can be allowed to use the Internet including a Virtual Learning Environment or education Email service. The Parental Permission Form must be signed and returned to the school.
- 2 Pupils must only use the school computer systems for those activities and services which they have been given permission to use and under the **appropriate supervision** of a member of staff.
- 3 The Internet will be used within school to **support children's learning** both formally (within taught lessons) and informally (outside taught lessons). Informal use is at the discretion of a member of staff who will set guidelines and rules for its use. Pupils will be taught to be critical and discriminating in their use of Internet sites.
- 4 Pupils must only use the user name and password they have been given. A personal user name and password is only shared with the class teacher and a parent, guardian or carer. Pupils will be taught to **respect the privacy** of files of other users. They will be taught not to enter, or attempt to enter without permission, the file areas of other pupils or staff.
- 5 Pupils should not download and use material or copy and paste content which is **copyright**. Most sites will allow the use of published materials for educational use. Teachers will give guidelines on how and when pupils should use information from the Internet. No **material from home** should be used on systems in school unless the media it is on has been virus scanned.
- 6 The Internet access provided in Somerset Primary schools is filtered to stop access to unsuitable material. As no filtering system can be 100% effective, it is important that parents are aware that users of the system are required to act responsibly. **Under no circumstances should pupils attempt to search for, view, upload or download any material that is likely to be unsuitable** for children or schools. Pupils have a responsibility to inform the member of staff supervising them if they have accidentally accessed inappropriate content.
- 7 Pupils will be encouraged to **maintain a balance** between the use of electronic communication and face to face communication with their peers.
- 8 Parents are asked to **explain the importance** to their child of these rules for the safe use of the Internet and to sign and return to the school the Parental Permission Form. A simplified version for discussion with your child can be downloaded from the resources on the tab for parents [at www.swgfl.org.uk/safety](http://www.swgfl.org.uk/safety).

Failure to comply with these rules will result in one or more of the following :

- A ban, temporary or permanent, on the use of the Internet at school.
- A letter informing parents of the nature and breach of rules.
- Appropriate sanctions and restrictions placed on future access to school facilities to be decided by the school.

If you do not understand any part of this "Acceptable Use Policy", parents should ask a member of staff for guidance. You should only sign the Parental Permission Form when you have read, understood and have explained the importance of these rules to your son or daughter.

Preston Primary Academy Trust

Parental Permission for Pupil use of Internet Facilities at School

The Internet provides information and opportunities for communication and collaboration to support children's learning. Appropriate behaviour is essential to develop and maintain use of communication tools that are beneficial to learning. As a result of the open and unregulated nature of the Internet, there is some material that is unsuitable for viewing by children. Therefore, we have introduced procedures that should enable your son/daughter to use the Internet facilities safely, responsibly and securely. A copy of the Trust's Acceptable Use Policy is attached to this letter. We will make every effort to ensure that unsuitable material is not viewed by your son/daughter. A member of staff will monitor each session. Each member of staff and parents of each pupil using the Internet must agree to the Acceptable Use Policy. This policy sets out the rules that must be adhered to, for the protection of all users.

www.thinkuknow.co.uk Provides the latest information on Internet sites, mobiles and new technology together with resources to help you support your child. It also provides a link for reporting any concerns you may have about content on the Internet.

[Online Safety for Schools | SWGfL | SWGfL](#)

The South West Grid for Learning Internet online safety area contains information for parents, teachers and school leaders.

The form below must be completed, signed and returned to the school for our records. Use of the Internet and/or Learning Environment and/or E-mail service will be withheld unless this has been done.

I have read, understood and explained the Acceptable Use Policy to my child:

Pupil Name (PLEASE PRINT) _____ of class _____

Name of Parent/Guardian/Carer (PLEASE PRINT) _____

Signature of Parent/Guardian/Carer _____ Date _____

Please sign to allow your son or daughter to use the service stated:

Service:	Signature of Parent/Guardian/Carer
The Internet (filtered access via industry standard filtering)	

Parents and Carers are encouraged to always take care to protect your home computer and members of the family who use it.

- Filter unsuitable sites so that they cannot be seen or used by your children. This doesn't have to cost a lot. Many Internet Service Providers (like AOL or BT) will include filtering and some level of Internet security free. You might want to check with them what is already available before buying extra security software. Most specialist PC stores can advise you.
- Talk to your children about how they use the Internet and tell them about the risks of downloading files from unknown sources or putting personal information on the Internet. The school will be doing this but you can help by repeating the message at home.
- To make sure your children are using the Internet safely, we strongly advise that you place your computer in a room also used by other members of the family.
